December 24th Monday, Open 8AM-Noon

December 25th Tuesday- Closed

December 31st Monday, Open 8AM-Noon

January 1st Tuesday- Closed

PUPPY MONTH

December is well known to be the month for new puppies to arrive in homes for Christmas gifts. Here are the things you need to know!

- **Vaccine Schedule:** 6 week visit- Distemper, Deworm

9 week visit- Distemper, Heartworm/
Flea Prevention
(give once a month every month)

12 week visit- Distemper, Bordetella

16 week visit- Rabies, Bordetella

- Puppies should be taken out every 2 hours when potty training. When your puppy goes outside you should reward them!
- **Socialization** is a big responsibility when having a new puppy. Start walking him around the neighborhood, introduce them to new animals and people, and when old enough and fully vaccinated start taking your puppy to puppy classes. Correct socialization will help prevent aggression in the future.
- If your puppy begins to pull, put some slack in the leash and snap it backwards while saying “easy”. Once he releases the pulling, give him some slack and praise him.

MERRY CHRISTMAS!!
